SUMMARY

Software Engineer with hands-on experience in developing and deploying full-stack web applications through internships and real-world client projects. Proficient in JavaScript, PHP, Python, MySQL, MongoDB, and modern web technologies, with a strong foundation in software engineering principles, database management, and responsive web development. Eager to contribute to scalable software solutions while continuously learning modern technologies.

EDUCATION

Amal Jyothi College of Engineering (Autonomous), APJAKTU — **Kottayam, Kerala**
Bachelor of Technology (B.Tech) in Information Technology | CGPA: 7.3 — 2022 – 2026

C Kesavan Memorial HSS, Kerala State Board — **Kottayam, Kerala**
Higher Secondary Education | Percentage: 93.5% — 2020 - 2022

St. George Public School, CBSE — **Kottayam, Kerala**
High School Education | Percentage: 93.6% — 2008 - 2020

EXPERIENCE

TOTAMANIC MARKETING SOLUTIONS — **Kottayam, Kerala**
Web Developer Intern — February 2025 – October 2025

- Developed and deployed two production-ready client websites using HTML, CSS, JavaScript, and responsive web design principles.
- Optimized website performance, SEO, and mobile responsiveness to improve user experience across devices.

UNIQUE WORLD ROBOTICS — **Kottayam, Kerala**
AI & ML Intern — June 17, 2025 – June 21, 2025

- Built a machine learning-based Traffic Prediction System using Python and scikit-learn.
- Performed data preprocessing, feature engineering, model training, and evaluation on real-world datasets.
- Developed a Flask-based web interface for real-time traffic predictions.

LEOPARD TECH LABS — **Kottayam, Kerala**
Flutter Developer Intern — June 2024 – July 2024

- Built and refined front-end screens using Flutter and Dart for a cross-platform mobile app
- Integrated Firebase Authentication and Firestore, ensuring real-time data sync and performance across devices

PROJECTS

Event Registration & Management Portal (stepone.jyteenskerala.org)
Tools**:** HTML, CSS, JavaScript, PHP, MySQL

- Developed a production-ready event registration and management portal using PHP, MySQL, HTML, CSS, and JavaScript.
- Implemented secure participant registration, authentication, and an administrative dashboard for managing registrations and event data.
- Successfully deployed the application for real-world event management.

Appointment Booking System
Tools: HTML, CSS, JavaScript, MongoDB

- Built a full-stack appointment booking system with authentication and scheduling functionality.
- Designed MongoDB collections and optimized CRUD operations for efficient data management.
- Developed an administrative approval workflow for managing appointments.

Fact-Based Comparison of News Articles
Tools: Python, Web Scraping, NLP, SBERT, NLI-BERT

- Developed an AI-powered system for extracting and comparing factual information from news articles across multiple media sources.
- Applied web scraping, NLP, SBERT embeddings, and NLI models to identify common, contradictory, and omitted facts.
- Improved factual comparison accuracy through semantic similarity and contradiction detection techniques.

SKILLS

HTML5, CSS3, JavaScript, PHP, Node.js, MySQL, MongoDB, Python, Flask, Git, Java, C, NumPy, Pandas
